thanks for choosing zenith
SAFETY TIPS:
Refer to the “Safety Tips” leaflet that came with your product for Important Safety Instructions.

WARNING:
TO REDUCE THE RISK OF ELECTRIC SHOCK DO NOT REMOVE COVER (OR BACK). NO USER SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated “dangerous voltage” within the product’s enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

WARNING:
TO PREVENT FIRE OR SHOCK HAZARDS, DO NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE.

POWER CORD POLARIZATION:
CAUTION: To Prevent Electric Shock, match wide blade of plug to wide slot, fully insert.

ATTENTION: Pour éviter les chocs électriques, introduire la lame la plus large de la fiche dans la borne correspondante de la prise et pousser jusqu’au fond.

NOTE TO CABLE/TV INSTALLER:
This reminder is provided to call the cable TV system installer’s attention to Article 820-40 of the National Electric Code (U.S.A.). The code provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of the cable entry as practical.

REGULATORY INFORMATION:
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAUTION:
Do not attempt to modify this product in any way without written authorization from Zenith Electronics Corporation. Unauthorized modification could void the user’s authority to operate this product.

This class B digital apparatus meets all requirements of the Canadian Interference-Causing Equipment Regulations.

“Ce appareil numérique de la class b respecte toutes les exigences du Règlement sur le matériel brouilleur du Canada.”
This page shows the features of your VCR and the differences between the models.

1. Model VRA421 is used for the description, operation, and details provided in this operating guide.
2. VCR design and specifications are subject to change without prior notice.

X = Feature is provided     N/A = Feature is Not Available
Connections for your VCR

Connections Without a Cable Box

Connections With a Cable Box

Turn off power or unplug VCR before making any connections.
Optional connections for your VCR

Audio/Video (A/V) Connections to TV
Use A/V connections for a better picture.

Accessory Audio/Video (A/V) Connections to VCR
Accessory Component: Another VCR, Camcorder, Video Camera, Satellite Receiver, Laser Disc Player

Turn off power or unplug VCR before making any connections.

A/V cable is not provided with VCR.

Note: If the back panel on your TV is different, refer to the TV's operating guide.
Things you must do before you can operate your VCR

Before you operate your VCR

1. Connect the Power (Required)  Plug your VCR into an unswitched 120 Vac, 60 Hz household power outlet. Turn on the VCR by pressing the POWER on the remote or on the VCR's front panel.

   Do not plug the VCR into a switched power outlet. Otherwise, when the power is switched off, the VCR turns off. You may then have to reset the time and date, and reprogram operational features.

2. Set Position of the CH3/CH4 Switch (Required) The CH3/CH4 switch on the VCR's back panel determines which channel the VCR uses to send video signals to your TV. The TV must be tuned to the same channel you set with the CH3/CH4 switch to see tape playback and status displays from the VCR. To determine which video channel provides the best picture for your system, try the switch in CH3 position and tune your TV to channel 3; then try the CH4 position and tune your TV to channel 4.

   For a test display, press TV/VCR on remote repeatedly until the VCR indicator appears in the VCR's front panel display. Press MENU on the remote to see the main menu.
Before you operate your VCR

How to Access Menus
1. Press MENU to see Main Menu.
2. Press NUMBER (1, 2, 3, or 4) to see desired sub menu to be used.
3. Press NUMBER to choose desired option to be changed.
4. Press QUIT to exit menu, or wait a few minutes and the VCR returns to normal operation.

Select SpeakEZ Function (On/Off)
A voice tells you how to use the features in the menus if SpeakEZ is ON. (ON is recommended.). See the AUDIO Menu for details.

Select Language for VCR Menus/Displays
(Optional) Select English, Spanish, or French for VCR menus and status displays. See the LANGUAGE SELECT option on the SETUP menu for details.
Some things you must do and others you may want to do before you can operate your VCR.

Before you operate your VCR

5 Set Date and Time for Clock (Required) Set the clock in the VCR to the current date and time. See CLOCK Menu for details.

You must set the clock before you can use any timer-controlled VCR features, for example, TIMER recordings.

6 Select Source for VCR (Optional) Set the source of the VCR for the type of program signal you have connected to the ANT IN jack on the back of the VCR. Choose TV if you have an antenna connected to the VCR. Choose CATV if you have a cable system (with or without a cable box) connected to the VCR. Choose AUX if you have an accessory Audio/Video (A/V) connected to the VCR.

See SOURCE option on SETUP menu for details.

7 Use Auto Program to Find Channels (Required) Use AUTO PROGRAM to find active channels in your broadcast area. AUTO PROGRAM stores the active channels that you can access by using the Channel Up/Down arrows. See AUTO PROGRAM on the SETUP Menu for details.

8 Use CH. ADD/DEL to Create Favorite Channels (Optional) Use CH. ADD/DEL to change the list of active channels found when using AUTO PROGRAM, so you can list your favorites. See CH.ADJ/DEL on the SETUP Menu for details.
Before you operate your VCR

**Select Other Menu Options**
You may not want to have the clock in your VCR adjusted automatically for Daylight Saving Time. Refer to Clock Menu for details.

Show or hide the VCR status on your screen by using the ON-SCREEN DISPLAY option on the SETUP menu. We recommend keeping this option ON. See the SETUP menu for details.

If you have a stereo VCR, select the audio format (HI-FI or NORMAL) to use when you play a tape. We recommend setting this option to HI-FI. See the PLAYBACK MODE option on the AUDIO Menu for details.

If you have a stereo VCR, select the audio format (STEREO, MONO or SAP) to use when recording. We recommend using STEREO. See the RECORD MODE option on the AUDIO Menu for details.

Things you may want to do before you operate your VCR.
Descriptions of items you need to know to operate your VCR.

**Front Panel Controls**
These controls perform basic VCR operations. The Remote performs basic as well as advanced VCR operations.

- **POWER On/Off Button**
- **Cassette Compartment**
- **Channel Up/Down Selector**
- **Stop/Eject Selector**

- **PLAY,REW (Rewind), F FWD (Fast Forward), PAUSE Selector**
- **LED Front Panel Indicators**
- **Recording Speed Selector**
- **REC/ITR (Instant Timer Record) Selector**

**LED Front Panel Indicators**
- VCR is turned on
- A Cassette is in the VCR
- VCR functions are available and channels are selected at VCR
- Remote Window: Keep this area free of obstruction.
- VCR is in Timer recording
- VCR is recording
On-Screen displays tell you the status of the tape inserted and VCR functions.

### VCR Status Displays

Current mode of operation (STOP, PAUSE, RECORD, PLAY, etc.) and audio format of tape, where Play=Hi-Fi or NORMAL (No display).

Tape Speed
- EP=Extended Play
- LP=Long Play
- SP=Standard Play

Current date, day, and time

**Typical VCR Status Display on TV**

- **PLAY HI-FI**
- **VCR CH 11**
- **ST/SAP**

- **15 MON 7:17 AM**
- **M-1:35:45**

- **Tape Counter Position**
  - **M-1:35:45**

- **Tape Time Remaining**
  - **REM 1:35**

### VCR Status Display Options

**When the Status Display appears, press ENTER repeatedly to see abbreviated displays, as follows:**

1. Press ENTER to see Status Display.
2. Press ENTER a second time to show only the tape counter position.
3. Press ENTER a third time to show only the tape time remaining.
4. Press ENTER repeatedly until all displays are removed.

**Note:**
If the VCR Status Display does not appear on the TV screen, check the ON-SCREEN DISPLAY option on the SETUP menu. Select ON to see the display. See "VCR Menu Operations" section for details.

Audio format of signal received by VCR tuner:
- STEREO, MONO or ST/SAP

Real-time tape counter
- M = Counter Memory is active
- - = Tape is rewound past index mark.

1:35:45 = Length of tape (in time)
- 1 = 1 hour
- 35 = 35 minutes
- 45 = 45 seconds
A quick list of all the buttons on your remote control and what they do.

The Buttons on Your Remote

CH (▼/▲) — Changes favorite channel list. Also selects AUX A/V input channel.

CM SKIP — Fast forwards picture search through 30 seconds of recording.

EJECT — Ejects the tape in the VCR.

ENTER — Programs menu options and shows VCR display.

F FWD (Fast Forward) — Advances tape rapidly.

MEMORY — Returns real-time tape counter to zero (M 0:00:00).

MENU — Shows main menu.

Numbers — Chooses channels and enters programming information.

PAUSE — Pauses tape temporarily during playback or record.

PLAY — Begins tape playback.

POWER — Turns VCR On and Off. Also turns VCR Timer Off and On, if programmed.

QUIT — Exits menu system.

REC/ITR — Begins tape recording.

REW — Rewinds tape to the beginning.

SP/EP — Chooses tape recording speed.

STOP — Cancels playback or record modes.

TRACKING (▼/▲) — Adjusts tape playback tracking.

TV/VCR — Switches source of TV picture between TV channel and VCR channel selection. VCR functions are available in VCR mode.

Installing Batteries

Be sure to install the batteries provided with this remote. Match positive (+) and negative (-) with markings shown in battery compartment.

Note: All VCR operations and menu options can be accessed by using the remote control.
How to Access Menus

Menu operation is easy—just follow the instructions shown at the bottom of the menu.

1. Press MENU to see main menu.
2. Press NUMBER (1, 2, 3, or 4) to see desired sub menu to be used.
3. Press NUMBER to choose desired option to be changed.
4. Press QUIT to exit menu, or wait a few minutes and the VCR returns to normal operation.

Note:
Perform menu operations with the VCR and TV on, and tune the TV to channel 3 or 4. The VCR must also be in the VCR mode of operation. Press TV/VCR repeatedly until VCR indicator appears in the front panel.
The Clock Menu sets the clock in VCR to the current time.

Clock Menu

How to Access Auto Daylight Saving
This VCR can adjust the clock automatically for Daylight Saving Time.

1. Press MENU to see Main Menu.
2. Press 1 to see Clock Menu on the Main Menu.
3. Press 1 to choose ON on the Clock Menu.

Note:
We recommend that you set the clock using the MANUAL method the first time you use your VCR. See MANUAL option for details.

Manual Clock Set
The CLOCK Menu sets the clock in the VCR to the current date and time.

Notes:
The clock must be set before you can record by using the TIMER menu.
You may have to reset the clock if a power outage lasts for more than 3 seconds.

How to Set Clock
1. Press MENU to see Main Menu.
2. Press 1 to see clock options.
3. Press 3 to adjust your options.
4. Press the NUMBER (0–9) then ENTER to specify current date and time.
5. Press QUIT to exit the menu system.

Typical CLOCK Menu with date and time settings
The TIMER Menu tells the VCR when to record a program on a day and at a time you specify.

**How to Use Timer**
1. Choose TIMER menu as described in “How to Access Menus.”
2. Press NUMBER(0-9) then ENTER to set the timer.
3. Press QUIT to exit the menu system.

**Note:**
Set the VCR in TIMER mode by pressing POWER to turn off the VCR. The TIMER indicator appears in the front panel of the VCR.

You cannot operate the VCR manually while it is recording. Pressing POWER stops the recording.

**To Erase a Program**
1. Choose TIMER menu as described in “How to Access Menus.”
2. Press NUMBER(1-8) to select desired PROGRAM to be erased.
3. Press 0 to erase the program.
4. Press QUIT to exit the menu system.

Press 0 to erase program
The SETUP Menu customizes the VCR's operation for your particular needs.

Choose SETUP Menu as described in “How to Access Menus.”

</tbody>
</table>

### SpeakEZ
Turns SpeakEZ ON or OFF. A voice tells you how to use the features you select in the menus if SpeakEZ is ON. (ON is recommended.)

### PLAYBACK
Selects HI-FI or NORMAL for tape playback. HI-FI (High Fidelity) provides stereo sound, if present on the tape, to the left and right VCR AUDIO output jacks on the back of the VCR. NORMAL provides monaural sound, regardless of the audio format present on the tape.

### RECORD
Select the STEREO, MONO, or SAP for recording a program. STEREO records sound from the left and right audio tracks in stereophonic format. MONO (Monaural) records sound in monaural format even if the program is in stereo. SAP records the Second Audio Program (SAP) track, if present, in addition to the stereo audio tracks. SAP usually contains audio in another language.

Audio Menu’s PLAYBACK and RECORD options are available only with stereo VCRs.
Watching TV Through the VCR

This page shows a typical video system and explains how to select channels.

Selecting Channels when the VCR is OFF
1. Turn TV on.
2. Select channel you’d like to watch at the TV. If you have a cable box, select channel 3 or 4 at the TV. Selects cable box channels at the cable box.

Selecting Channels at the TV when VCR is ON
1. Turn TV and VCR on.
2. Place VCR in TV mode by pressing TV/VCR on remote repeatedly until the VCR indicator disappears from the VCR front panel.
3. Select channel you’d like to watch at the TV. If you have a cable box, select channel 3 or 4 at the TV. Select cable box channels at the cable box.

Selecting Channels at the VCR when VCR is ON
1. Turn TV and VCR on.
2. Place VCR in VCR mode by pressing TV/VCR on remote repeatedly until the VCR indicator appears in the VCR front panel.
3. Select channels 3 or 4 at the TV. If you have connected your VCR to the TV's A/V input jacks, select the A/V source at the TV for a better picture.
4. Select the channel you’d like to watch at the VCR. If you have a cable box, select channel 3 or 4 at the VCR. Select cable box channels at the cable box.
This page describes how to connect a camcorder to your VCR.

**Camcorder Connected to VCR**

Back Panel of Stereo VCR

A/V cable is not provided with VCR.

**Select AUX for Viewing an Audio/Video source like a Camcorder**

1. With TV and VCR on, place VCR in VCR mode by pressing TV/VCR on the remote (and repeat) until the VCR indicator appears in the VCR’s front panel.

2. Select channel 3 (or 4) on the TV. Note: If your TV has A/V jacks, you may get a better picture if you connect your VCR there. (Then, select the A/V source on the TV.)

3. At the VCR, Channel Down lower than the lowest channel (or Channel Up above the highest) to select “AUX” Or, you may - Choose the SETUP menu as described in “How to Access Menus.” Press 3 for the SETUP menu’s SOURCE item. Press 3 for AUX, then ENTER. (Press QUIT to exit.)

Playing Tapes

This page explains the basics of playing tapes in your VCR.

**Automatic Playback (No Safety Tab)**
1. Tape playback begins automatically, if the safety tab is removed from the cassette case. For example, most rental movies have no safety tab. Simply insert the prerecorded VHS cassette into the VCR. Power turns on and playback begins.

2. Select the channel 3 or 4 at the TV. Or, select the TV's AUX (Auxiliary) source to see the picture, if you are using the A/V jacks.

**Manual Playback (Has Safety Tab)**
1. Press POWER to turn VCR on.

2. Insert a prerecorded VHS cassette into the VCR.

3. Press PLAY to begin playback.

4. Select the channel 3 or 4 at the TV. Or, select the TV's AUX (Auxiliary) source to see the picture, if you are using the A/V jacks.

**Unloading the Cassette from the VCR**
1. Press STOP if the tape is playing.

2. Press STOP/EJECT at the VCR until the cassette is ejected.

**Note:**
This VCR records only in SP and EP speeds. Your VCR sets the playback speed automatically to the speed used to record the tape.

(Continued on next page)

Playing Tapes

Auto/Manual Tracking Adjustment
Your VCR adjusts tracking automatically when you play a tape. If the tape was recorded on a different VCR, streaks (video noise) may appear. While the tape is playing, press TRACKING (▼/▲) to adjust the tracking manually.

Real-Time Tape Counter
Press ENTER twice to keep the tape counter on the TV screen. Press ENTER repeatedly to remove all displays. The counter resets to 0:00:00 when you insert a cassette or when a tape is rewound to its beginning.

Pause/Forward/Reverse Slow-Motion Video
(While in play mode) Press PAUSE for still video. Press PAUSE again, and follow on-screen instructions for Forward or Reverse slow motion. Press F FWD or REW to control slow speed during slow motion. Press PLAY to resume normal tape playing.

Note: When the reverse slow mode continues for more than 30 seconds, the VCR will automatically change to play mode.

Tape Rewind and Fast Forward
(While in Stop mode) Press and release REW or F FWD (Fast Forward), as desired. Press STOP when tape reaches desired location.

Reverse/Forward Search
(While in Play mode) Press and release REW or F FWD, as desired. Press PLAY to resume normal tape playing.

CM Skip (Commercial Skip)
(While in play mode) Pressing CM SKIP on the remote skips commercials or other program material. Pressing 1, 2, 3, or 4 times skips 30, 60, 90, or 120 seconds, respectively. CM SKIP skips a full 120 seconds of commercials in a few seconds, then resumes normal playback.
Option You Can Use While Recording

Instant recording lets you record until you reach the end of tape or you press STOP to stop recording.

1. Turn TV and VCR on.
2. Place VCR in VCR mode by pressing TV/VCR on the remote repeatedly until the VCR indicator appears in the VCR front panel.
3. Select channel 3 or 4 at the TV. If you have connected your VCR to the TV's A/V input jacks, select the A/V source at the TV for a better picture.
4. Select the channel to be watched and recorded at the VCR. If you have a cable box, select the cable box output channel (usually 3 or 4) at the VCR. Select cable box channels at the cable box.
5. Insert a VHS cassette tape into the VCR.
6. Press SP/EP to select recording speed, if desired. Recording speed is always SP, unless you select EP.
7. Press REC/ITR until recording begins. REC indicator appears in the VCR front panel. Recording continues until you reach the end of the tape, or until you press STOP to stop recording.
Instant Recording

Preset Time Periods for ITR Recording.

Note:

Preset recording time counts down until the recording is over.

Instant (attended) Timer Recording (ITR) lets you record where you record for a specific preset time period, instead of recording until the end of tape is reached. For example, you can record a 30-minute show using the preset time period.

1. Turn TV and VCR on.

2. Place VCR in VCR mode by pressing TV/VCR on the remote repeatedly until the VCR indicator appears in the VCR front panel.

3. Select channel 3 or 4 at the TV. If you have connected your VCR to the TV's A/V input jacks, select the A/V source at the TV for a better picture.

4. Select the channel to be watched and recorded at the VCR. If you have a cable box, select the cable box output channel (usually 3 or 4) at the VCR. Select cable box channels at the cable box.

5. Insert a VHS cassette tape into the VCR.

6. Press SP/EP to select recording speed, if desired. Recording speed is always SP, unless you select EP.

7. Press REC/ITR until recording begins. The REC indicator appears in the VCR front panel. Recording continues until you reach the end of the tape, or until you press STOP to stop recording.

8. Press REC/ITR repeatedly to select a preset recording time period. Each subsequent press of REC/ITR increases the recording time by 30 minutes until you reach a maximum of 4 hours.

Presses of REC/ITR | Display | Preset Time For Recording |
--- | --- | --- |
1 (Press) | Current Time | Until end of tape |
2 | 0:30 | 30 minutes |
3 | 1:00 | 1 hour |
4 | 1:30 | 1 hour and 30 minutes |
5 | 2:00 | 2 hours |
6 | 3:00 | 3 hours |
7 | 4:00 | 4 hours |
8 | No display | normal recording |

Note: The SP mode determines how much tape is left and switches speed from SP to EP, if necessary, to complete recording the program. There will be some picture and sound distortion at the point of the speed change.
Recording one show while watching another.

Instant Recording

Note:
If you have a cable box connected to your VCR, you cannot record one show and watch another.

Choose the show you wish to record using the VCR's channel selector. Choose the show you wish to watch using the TV's channel selector.

1. Turn TV and VCR on.

2. Place VCR in VCR mode by pressing TV/VCR on the remote repeatedly until the VCR indicator appears in the VCR front panel.

3. Select channel 3 or 4 at the TV. If you have connected your VCR to the TV's A/V input jacks, select the A/V source at the TV for a better picture.

4. Select the channel to be watched and recorded at the VCR. If you have a cable box, select the cable box output channel (usually 3 or 4) at the VCR. Select cable box channels at the cable box.

5. Insert a VHS cassette tape into the VCR.

6. Press SP/EP to select recording speed, if desired. Recording speed is always SP, unless you select EP.

7. Press REC/ITR until recording begins. REC indicator appears in the VCR front panel. Recording continues until you reach the end of the tape, or until you press STOP to stop recording.

8. Place VCR in TV mode by pressing TV/VCR on remote to turn off VCR indicator in the VCR front panel.

9. Select the show you wish to watch using the TV's channel selector.

Options You Can Use While Recording

**Instant Recording**
(continues until end of tape)

**PAUSE** - Momentarily pauses recording. Press PAUSE again to resume recording.

**STOP** or **STOP/EJECT** - Stops and exits recording mode.

Remote's Controls

VCR's Controls

Options You Can Use While Recording

**Instant Recording**
(continues until end of tape)

**PAUSE** - Momentarily pauses recording. Press PAUSE again to resume recording.

**STOP** or **STOP/EJECT** - Stops and exits recording mode.

Note:
To return to the show you're recording, select channel 3 or 4 at the TV. Place the VCR in the VCR mode by pressing TV/VCR on the remote to show the VCR indicator in the VCR's front panel.
This page explains how to use the timer so that you can record while you are away.

Recording While You’re Away

Timer-controlled recording lets you record shows unattended. Pick a day and time up to one year in advance. The show may be recorded once or on multiple days. You can schedule up to eight different events into the PROGRAM TIMER for recording, as long as no events overlap in the same time period.

1 Turn TV and VCR on.

2 Place VCR in VCR mode by pressing TV/VCR on the remote repeatedly until the VCR indicator appears in the VCR front panel.

3 Select channel 3 or 4 at the TV.

4 Insert a VHS cassette tape into the VCR.

5 Program events to be recorded with the Timer by following the procedure in the TIMER MENU section. If you have a cable box, select channel 3 or 4 (or the VCR) as the channel to be recorded. Keep your cable box on when using the Timer to record.

6 Enable the Timer by pressing POWER to turn off the VCR. The TIMER indicator appears in the VCR front panel to indicate the VCR is in the TIMER recording mode.

VCR Operation with Timer Off or On

<table>
<thead>
<tr>
<th>VCR POWER</th>
<th>TIMER STATUS</th>
<th>VCR OPERATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>On</td>
<td>Off</td>
<td>Enables timer-controlled recording if an event is scheduled in the Timer. You cannot operate the VCR manually while it is in Timer Set mode. If you have scheduled the Timer, you’ll be recording at a later time.</td>
</tr>
<tr>
<td>Off</td>
<td>On (or set)</td>
<td>Disables timer-controlled recording if an event is scheduled in the Timer. All other VCR operations can be used as desired.</td>
</tr>
</tbody>
</table>
Troubleshooting

Before Calling for Service
Please refer to this chart before calling for service. First, turn on the TV and VCR. Select appropriate input for the TV to receive the video signal from the VCR. You will probably use the Antenna In connection to the TV. Select channel 3 or 4 at the TV. Place the VCR in the VCR mode by pressing TV/VCR on the remote repeatedly until VCR indicator appears in the VCR front panel. If you have a cable box, turn it on and select channel 3 or 4 at the VCR.

<tr>
<td></td>
<td>VCR Audio/Video Out is not selected for viewing at the TV.</td>
<td>Select AUX or A/V source as TV input.</td>
</tr>
<tr>
<td></td>
<td>VCR AUDIO RECORD mode is set to SAP or MONAURAL.</td>
<td>Set VCR AUDIO RECORD mode to Stereo. See AUDIO Menu.</td>
</tr>
</tbody>
</table>
Troubleshooting

Some quick and easy tips to fixing problems yourself.

### Magnetic Field from Other Equipment
Keep the VCR and videotapes away from strong magnetic fields, such as those produced by a vacuum cleaner, refrigerator, or air conditioner.

### Video Head Cleaning
Your VCR automatically cleans the heads as it is used. However, after long periods of use, your video heads may become clogged with accumulated dirt, causing distortion. When this occurs, use a do-it-yourself wet-type head cleaning cassette available from your Zenith dealer.

**Caution:**
Do not use a dry-type head cleaning system. It may seriously damage the VCR and cassettes used in the VCR. Snow, streaking in picture, and horizontal pulling indicate the need for professional video head cleaning. See your Zenith approved service center for cleaning.

### Cabinet Cleaning
Clean the outside surfaces of the VCR with a soft lint-free cloth as required. Use care not to scratch the VCR during cleaning.

<table>
<thead>
<tr>
<th>Moisture Condensation</th>
<th>In locations where moisture condensation may occur:</th>
</tr>
</thead>
<tbody>
<tr>
<td>• When the video recorder is moved from a cold place to a warm place.</td>
<td></td>
</tr>
<tr>
<td>• Under extremely humid conditions</td>
<td></td>
</tr>
<tr>
<td>• Keep the power cord plugged into an AC outlet and POWER On. This will help prevent condensation.</td>
<td></td>
</tr>
<tr>
<td>• When condensation has occurred, wait a few hours for the VCR to dry before using it.</td>
<td></td>
</tr>

VIDEO CASSETTE RECORDER OR PLAYER

Welcome into the Zenith family! We believe that you will be pleased with your new Zenith Entertainment Machine. Please read this warranty carefully, it is a “LIMITED WARRANTY” as defined under Federal Law. This warranty gives you specific legal rights, and you may also have other rights that vary from state to state within the U.S.A.

ZENITH’S RESPONSIBILITY

Service Labor During a period of 90 days from effective warranty date, Zenith will provide service labor by a Zenith authorized service center when needed as determined by Zenith, as a result of manufacturing defects.

Parts New or remanufactured replacements for factory-defective parts will be supplied by a Zenith authorized service center for one year from effective warranty date. Such replacement parts are warranted for the remaining portion of the original warranty period.

Not Covered This warranty covers manufacturing defects and does not cover installation, adjustment of customer controls in the home, installation or repair of home antenna systems, cable converters or cable company-supplied equipment; it also does not cover damage due to misuse, abuse, negligence, acts of God or other causes beyond the control of Zenith. Any alteration of the product after manufacture voids this warranty in its entirety.

OWNER’S RESPONSIBILITY

Effective Warranty Date Warranty begins on the date of original consumer purchase. For your convenience, keep the dealer’s dated bill of sale or a delivery ticket as evidence of the purchase date.

Operating Guide Read your Operating Guide carefully so that you will understand the operation of your set and how to adjust the customer controls.

Carry-In Service The video product must be taken to a U.S. or Canadian Zenith authorized service center for warranty service and must be picked up by the owner.

TV Set Performance It is the owner’s responsibility to maintain the TV receiver with which the video product is used, and the associated antenna system, in proper operating condition.

Important Product Registration—Please fill out and mail your Product Registration Card. It is imperative that Zenith know how to reach you promptly if we should discover a safety problem that could affect you.

Warranty Service For warranty service information, contact any Zenith authorized service center. Parts and service labor that are Zenith’s responsibility (see above) will be provided without charge. Other service is at the owner’s expense. If you have any problem in obtaining satisfactory warranty service, call or write the Zenith Response Center. You must provide the model number, serial number and date of purchase or date of original installation. Before you ask for warranty service, read “Maintenance And Troubleshooting” in your operating guide. You might avoid a service call.

THIS WARRANTY IS IN LIEU OF ANY OTHER WARRANTY, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, AND ZENITH SHALL NOT BE LIABLE FOR ANY CONSEQUENTIAL, INDIRECT, OR INCIDENTAL DAMAGES OF ANY KIND, INCLUDING LOST REVENUES OR PROFITS IN CONNECTION WITH THE PRODUCT.
